Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

dear sir,

I don't think this is fair to all, some of us only have these phones for emergencies when we're on the road. for example my wife and i bought two tracphones about three weeks ago and used only 7 of the 30 min. that it came with for setup and to make sure they work and i don't see making any calls soon. It's more to make her feel good when i'm on the road 20 miles to work (one way) .

thank you for your time Rich

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.
